The University has sent up separately proposals for the revision of the scale of pay of the teaching Staff of the College of Engineering. They have proposed that as against five Professors at present, there may be three Professors, one for each branch of Engineering one of them being also Principal with an allowance and that of the three posts one may be on the Selection grade Rs 700-30-850 and the other two in grade Rs 400-25-700. The chief Engineer has however, held the view that the Professors and the Principal of the College should also be experienced officers from the P. W. D to permit of change from time to time and to ensure a practical bias in the teaching of the College. The University has been asked to furnish their views on the proposals of the Chief Engineer.

Mr. Ramaswami was never in the P.W.D. But the idea from the beginning seems to be that he should succeed Mr. Krishnaswami Iyengar on the latter's retirement. In the circumstance, the recommendation of the university Council to appoint Mr RAmaswami as Principal on the usual allowance of Rs 100/- p.m. may perhaps be approved
